Safely Back To School...

As our children head back to school, it is important that they, the teachers and families are protected. Our Technology will make this possible...

FeverSafe
Educational Thermal Screening Solutions

A Secure, Connected / Wireless Platform With Flexible Modules

- **Student/Teacher/Visitor Screening At Entrances**
- **Bus Entry Screening**
- **Occupancy Calculation And Management**
- **Employee / Student Database Connection**
- **Customized Notification And Escalation Protocols**
- **Convertible Technology For Post COVID-19**

School / Stadium Entrances

High Accuracy Thermal Camera With Integrated Samsung Digital Screen

- High accuracy(+-.3%) thermal imaging stations inclusive of Samsung SOC (6ft range)
- Customer Portal for Reports and notification and escalation engine
- Full Facial Recognition via VSBLTY
- Interface to Custom App and Student Database

Thermal Kiosks With Integrated Small Screen

- High accuracy(+-.3%) thermal imaging (3ft range)
- Customer Portal for Reports and notification and escalation engine
- Interface to Custom App and Student Database

Economical Connected Handheld Thermal Screening

- Contactless thermal screening
- Bluetooth customer portal for reports and notification and escalation engine
- Interface to Custom App and Student Database with QR code ID
- Configurable reporting and trend logs

EFFICIENT POWER TECH

Bus Entry Screening

## The Mini Camera Operates On The Same Fastcomm Secured Wireless Network

- o Capture optical video of the seats when not scanning for temp
- o High accuracy(+-.3%)
- o Customer Portal for Reports and Notification and escalation engine
- o Escalation and alerts to Parents / Admin via text or email
- o Facial Recognition if tied to school database
- o Direct global data via cell router to cloud
- o 6ft range
- o Interface to Custom App and Student Database
- o Durable high bright screen and driver swing arm for storage

Occupancy Calculation And Management

Fastcomm Artificial Intelligence Filter On Smart-cam Video Feed To Count Entries And Exits

50/50
Venue at full capacity
Please wait for someone to leave the venue before entering.

Thank you

Post COVID-19 Technology Conversion

Fastcomm and TEAVA Systems Are Technology Leaders In School Safety Systems. Post COVID-19, The Secured Wireless Network Can Be Converted Seamlessly For School Protection

TRACK THREATS
AI Gun Detection with early notification

ADVANCED FRICTIONLESS ENTRY MONITORING
Access Control. Visitor and Stranger Detection

MULTI-MEDIA MONITORING AND THREAT ESCALATION

Acquisition assistance, lease options, delayed payment and SAAS models available.
