LED FIXTURES CATALOG

2021 ver.1

Efficient Power Tech was formed in 2015 to provide small to medium sized commercial and industrial businesses with all the same product quality of advanced energy technologies available to their mega-large competitors at affordable price points that can make an immediate positive impact on their businesses with the most attentive and responsive service available.

Our mission is to provide profitable energy management solutions for efficiency and sustainability.

Area & Site (MAL01)

MAL01 is the first generation of area light series.High performance EPT area/site luminaire is the culmination of energy-efficient LED lighting in a sleek low profile design. MAL01 series feature the latest LED technology, thermal management and controls, while providing excellent lighting and uniformity for large area/site applications

Housing

- Durable, die-cast aluminum housing with heat dissipating fins
- Dark bronze polyester powder-coat finish

Electrical

- Universal 120-277 VAC or 347-480 VAC input voltage
- Standard with 1-10V dimming

Mounting

- Round pole, Square pole, Slipfitter and Wall mount

UL listing

- Wet location

Recommended Use

- Automobile dealerships
- Parking lots
- Downtown areas

Distribution

- Type III, IV and V
- Backlight control

Small Size **40W&70W&105W**
Dimensions: 12.4x18.45x7in.

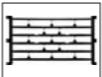

Accessories

PIR Motion Sensor, 120-277V
USE: Sensor can be pre-installed in factory or field installed

Photocell - 120V-277V 347V/480V
USE: Photocell is field installed

Backlight Control

Replaces up to 320W MH fixtures.

Area & Site (MAL02)

MAL02 series provides uncompromising optical performance and outstanding versatility for a wide variety of area and roadway applications. MAL02 is the high-end design. Multiple arm designs and mounting options are available. U.L. and CUL listed. Additionally, fixture to system-level controls is available to help improve energy savings and lower maintenance costs.

Housing

- Durable, die-cast aluminum housing with heat dissipating fins
- Dark bronze polyester powder-coat finish

Electrical

- Universal 120-277 VAC or 347-480 VAC input voltage

Backlight Control

Area & Site (MAL04)

MAL04 series is the compact, efficient, economical approach to LED area lighting and provides functional, low-profile design with excellent operating performance. MAL04 series feature the latest LED technology, thermal management and controls, while providing excellent lighting and uniformity for large area/site applications. Multiple arm designs and mounting options are available. It delivers uniform and energy conscious illumination to parking lots and commercial lighting applications.

Housing

- Durable, die-cast aluminum housing with heat dissipating fins
- Dark bronze polyester powder-coat finish

Electrical

Area & Site (MAL06)

MAL06 series utilizes the latest advancements in solid-state lighting to deliver a maximum level of output with minimal energy consumption for a modern outdoor lighting solution. It is available with a wide choice of different LED wattage configurations and optical distributions designed to replace MH lighting up to 1000W MH. Multiple different mounting options allow for application in a wide variety of new and existing installations.

AREA & SITE

Are ideal for use in various architectural environments such as auto dealerships, parking lots, walkways, roadways, campuses, facade lighting, grocery stores and other public areas.

MOUNTING

- Standard versatile mounting arm accommodates multiple drilling patterns as well as square and round poles
- Wall Mount available for direct wall mounting and J-box mounting
- Optional for die-cast aluminum slipfitter mounting adapter

Arm Mount (Square or Round poles)
Standard versatile mounting arm is simple to install and can be used with existing poles for retrofit installations.

Slipfitter Mount
An optional cast aluminum mast arm adapter secures fixture head to nominal 2"(2-3/8" O.D. pipe size) horizontal steel tenon arm.

Wall Mount
Wall Mount is easy to install for direct wall mounting with 1/2" conduit wiring or standard J-box mounting.

Housing

Features a compact, one-piece die cast housing, saving costs versus models that are extruded or cast and require additional parts. The heat sink is included in the actual casting, further minimizing the need for additional parts.

Photocontrol

Optional twist-lock photocontrol allows for further energy saving.

Standard Arm Mount

The design features an integral arm, increasing strength and simplifying installation.

PHOTOMETRY

Optional Type III and Type IV and Type V Photometry as per applications.

PIR Sensor

Optional PIR sensor allows for security and energy saving

Additional Mounting Accessories

INSTALLATION KIT

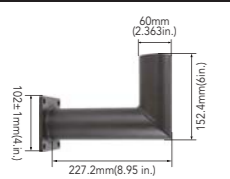

<p>Slipfitter Installation kit NO. SPFD04DA Finish: Dark Bronze USE: For pole mounting. Aluminum mast arm adapter secures fixture head to nominal 2"(2-3/8" O.D. pipe size) horizontal steel tenon arm. Furnished with two 1/2" hex head stainless-steel screw.</p>	<p>Round Poles Installation kit NO. SQAL01DA Finish: Dark Bronze USE: Standard versatile mounting arm for MESTER Area Light application, with K/O to install Photocell or sensor. Furnished with two 5/16" hex head stainless-steel bolts and two 1/2" hex head stainless-steel screw. Suitable for 4" & 5" round Poles.</p>
<p>Square Poles Installation kit NO. SQAL01DA-A Finish: Dark Bronze USE: Standard versatile mounting arm for MESTER Area Light application, with K/O to install Photocell or sensor. Furnished with two 5/16" hex head stainless-steel bolts and two 1/2" hex head stainless-steel screw. Suitable for 4" & 5" square pole.</p>	<p>Yoke Installation kit NO. YKFD04DA Finish: Dark Bronze USE: The yoke mount attaches an MESTER floodlight(70W/105W/150W/200W) to almost any surface: wall, roof, or wood pole. It can be used with our 2-3 / 8 " O.D. Tenon mounting bracket (SP-TR-D) to install.</p>
<p>250W Trunnion Installation kit NO. TRFD04DA Finish: Dark Bronze USE: The trunnion mount attaches an MESTER floodlight(250W/300W) to almost any surface: wall, roof, or wood pole. It can be used with our 2-3 / 8 " O.D. Tenon mounting bracket (SP-TR-D) to install.</p>	<p>Wall Mount Installation kit NO. WMAL01DA Finish: Dark Bronze USE: Wall Mount is easy to install for direct wall mounting with 1/2" conduit wiring or standard J-box mounting, and with K/O to install Photocell or sensor. Furnished with two 5/16" hex head stainless-steel bolts.</p>

POLE BRACKET • For mounting one fixture on an existing pole

<p>4" Square Pole Mount with 2-3/8" O.D. Tenon No. 4SQ-SP-D Finish: Dark Bronze USE: For use with square, non-tapered steel and aluminum poles. Furnished with four 5/16" hex head stainless-steel bolts. Vertical tenon measures 2-3/8" O.D., and is made of steel tubing. Fixtures mounted to this bracket can be adjusted both vertically and horizontally.</p>	<p>4" Round Pole Mount with 2-3/8" O.D. Tenon No. 4SQ-SP-D Finish: Dark Bronze USE: For use with Round, non-tapered steel and aluminum poles. Furnished with three 3/8" hex head stainless-steel bolts. Vertical tenon measures 2-3/8" O.D., and is made of steel tubing. Fixtures mounted to this bracket can be adjusted both vertically and horizontally.</p>
<p>5" Square Pole Mount with 2-3/8" O.D. Tenon No. 5SQ-SP-D Finish: Dark Bronze USE: For use with square, non-tapered steel and aluminum poles. Furnished with four 5/16" hex head stainless-steel bolts. Vertical tenon measures 2-3/8" O.D., and is made of steel tubing. Fixtures mounted to this bracket can be adjusted both vertically and horizontally.</p>	<p>5" Round Pole Mount with 2-3/8" O.D. Tenon No. 5SQ-SP-D Finish: Dark Bronze USE: For use with Round, non-tapered steel and aluminum poles. Furnished with three 3/8" hex head stainless-steel bolts. Vertical tenon measures 2-3/8" O.D., and is made of steel tubing. Fixtures mounted to this bracket can be adjusted both vertically and horizontally.</p>
<p>Pole Bracket Accessories -Angle-Adjustment Adapter NO. SOA-ALDA Finish: Dark Bronze USE: Durable brackets are engineered to provide versatile mounting options. These arms are made from rugged die-cast aluminum. They allow optimal positioning of the light fixture to maximize the lighting effectiveness vertically and horizontally.</p>	<p>Pole Bracket accessories-Tenon & Yoke Adaptor NO. SP-TR-D Finish: Dark Bronze USE: The 2-3/8" OD Tenon Mount Adaptor for Yoke Fixtures is designed to mount MESTER light fixtures that are equipped with a yoke mount onto a 2-3/8" OD tenon. It may be utilized with the Mester Flood Light Series of light fixtures.</p>

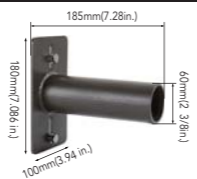

WALL BRACKET

- Attaches to any flat surface
- Provides wiring access

90° Wall Mount Bracket with 2-3/8" O.D. Tenon
NO. WM-SP-D
Finish: Dark Bronze
USE: The 90° wall mount bracket with 2-3/8" tenon attaches an MESTER floodlight to almost any surface: wall, roof, or wood pole. Provides wiring access and abuilt-in 2-3/8" O.D. tenon to mount a fixture with our adjustable slipfitter. Suggested 3/8" diameter bolts for mounting. Mounting holes are spaced 3-1/4" apart.

Mid-Pole tenon Bracket

2-3/8" OD Horizontal Tenon Mid-Pole Bracket
NO. SQ-SP-D
Finish:Dark Bronze
USE:2-3/8" OD Horizontal Tenon Mid-Pole Bracket is designed to mount light fixture that is equipped with a adjustable slipfitter onto a 2-3/8" OD horizontal tenon

Round External Mount Horizontal Tenon

- To mount 2/3/4 fixtures on a existing pole

Double 90° Horizontal Tenon Adaptor
NO. R60-SP2-90-D
Finish:Dark Bronze
USE:The Bracket is designed to mount over 2-3/8" (60mm) O.D. vertical tenon. Two fixtures can be mounted to the Round External Mount Horizontal Tenon and adjusted horizontally

Triple 120° Horizontal Tenon Adaptor
NO. R60-SP3-120-D
Finish:Dark Bronze
USE:The Bracket is designed to mount over 2-3/8" (60mm) O.D. vertical tenon. Three fixtures can be mounted to the Round External Mount Horizontal Tenon and adjusted horizontally

Double 180° Horizontal Tenon Adaptor
NO. R60-SP2-180-D
Finish:Dark Bronze
USE:The Bracket is designed to mount over 2-3/8" (60mm) O.D. vertical tenon. Two fixtures can be mounted to the Round External Mount Horizontal Tenon and adjusted horizontally

Quad 90° Horizontal Tenon Adaptor
NO. R60-SP4-90-D
Finish:Dark Bronze
USE:The Bracket is designed to mount over 2-3/8" (60mm) O.D. vertical tenon. Four fixtures can be mounted to the Round External Mount Horizontal Tenon and adjusted horizontally

Triple 90° Horizontal Tenon Adaptor
NO. R60-SP3-90-D
Finish:Dark Bronze
USE:The Bracket is designed to mount over 2-3/8" (60mm) O.D. vertical tenon. Three fixtures can be mounted to the Round External Mount Horizontal Tenon and adjusted horizontally

LED Wall Pack (MWP01)

Cast in a traditional design, the wall packs offer a popular, classic appearance with energy-efficient LED technology. These LED wall packs were designed to look exactly the same as our traditional HID wall packs, so you can easily upgrade without leaving behind any unsightly discoloration from the old fixture. Ideal for outdoor applications such as security, building entryways and walkway

Housing

- Rugged die-cast aluminum, corrosion-resistant housing
- Dark bronze polyester powder-coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277/347/480 VAC input voltage

Mounting

- Junction box or wall mount

UL listing

- Wet location

Recommended Use

- Pathway
- Building entryways
- Perimeter lighting

LED Wall Pack (MWP08)

The MWP08 efficiently deliver lumens and consume less energy than traditional wall pack MH technologies. A traditional non-cutoff design offers best vertical illuminations. This versatile luminaire is ideal for replacing existing MH fixtures. Applications: Security, pathway and perimeter lighting Building entryways and walkways.

Housing

- Rugged die-cast aluminum, corrosion-resistant housing
- Dark bronze polyester powder-coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277/347-480 VAC input voltage

Mounting

- Junction box or wall mount

UL listing

- Wet location

Recommended Use

- Pathway
- Building entryways
- Perimeter lighting

LED Wall Pack (MWP10)

The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire. Well-crafted reflector optics allow the light engine to be recessed within the luminaire, providing visual comfort, superior distribution, uniformity, and spacing in wall-mount applications. 0 to +90° tilt adjustments. The classic architectural shape of the WP10 series was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings.

Housing

- Rugged die-cast aluminum, corrosion-resistant housing

LED Sports Light (MSL01)

Designed for High School, Collegiate, Recreational and Professional indoor and outdoor sports venues and outdoor stadium lighting. Heavy-Duty, lightweight and durable Die-Cast design for high wear resistance withstands harsh, extreme outdoor conditions. The highly efficient and professional LED sports light, with different NEMA distributions, deliver more foot-candles of illumination to exactly where you need.

Housing

- Durable, die-cast aluminum housing with heat dissipating fins
- Black polyester powder-coat finish

Electrical

- Universal 120-277V/277V-480V VAC input voltage
- 0-10V dimming optional

Mounting

- Trunnion

UL listing

- Wet location

Recommended Use

- General and security lighting for large areas
- Port and rail centers
- Airport apron
- Interior or exterior sports

Distribution

- 3Hx3V, 4Hx4V

Post Top Light (MPL01)

The post top provides a unique, scalable lighting solution targeted for 8’ to 20’ mounting heights. Its design brings proportion to parking lots, drive lanes, entrances, building perimeters and pathways. The excellent optical design that deliver the smooth light with a very good uniformity. The structure is clean and more popular, promotes harmony between the outdoor lighting and architecture.

Housing

- Dark bronze polyester powder-coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277 VAC or 347-480 VAC input voltage
- Standard with 1-10V dimming

Mounting

- Poles or wall sconce

Bollards (MBL01)

The MESTER LED Bollard is a stylish, energysaving, long-life solution designed to perform the way a bollard should-with good glare light. An optical leapforward, this full cut-off luminaire will meet the most stringent of lighting codes. Its rugged construction, durable finish and long-lasting LEDs will provide years of maintenance-free service. It is ideal for illuminating building entryways, walking paths and pedestrian plazas, as well as any other location requiring a low-mounting-height light source.

Housing

Landscape (MLS01)

This MLS01 series is the perfect choice for many commercial and residential applications including: wall washing, landscape, facade, or small area illumination. The landscape series has a traditional 1/2" NPS threaded knuckle mounting that provides superior aiming without loosening over time and is constructed out of die-cast aluminum with powder coat paint finish for excellent value and rugged service.

Housing

- Rugged die-cast aluminum, corrosion-resistant housing
- Dark bronze polyester powder-coat finish

Electrical

- Input 12-24V AC/DC

Mounting

- Traditional 1/2" NPS threaded adjustable knuckle mounting.

LED Canopy (MCP03)

MCP03 series is a commercial grade LED canopy luminaire that utilizes high powered LEDs with precise efficient optical control and on board wattage and lumen choices. It provides excellent uniformity, energy efficiency and control for surface mount applications. The versatile and functional features: energy-efficient LED system, rugged design, pendant or junction box mounting options, multiple lumen packages and optical distributions.

Housing

- Durable, die-cast aluminum housing with heat dissipating fins
- White, dark bronze or black polyester powder-coat finish

LED Canopy (MCP06)

The circular MCP06 has a beautiful appearance, and its uniform light distribution can achieve a good lighting effect. Multiple fins increase the heat dissipation surface area so that the MCP06 has a life span of more than 50,000 hours. MCP06 performs excellent energy-saving result with dimming sensor and Mester smart control system.

LED High Bay (MHB02)

The HB02 are built to withstand standard 55°C temperature and able to eliminate the dust, moisture and airborne contaminants. They are known for their superior optical design and efficient illumination. Hook or pendant mount supports simple one-for-one replacement of outdated lighting, simplifying LED installations and upgrades. MHB02 features economical LED lighting solutions that reduce energy and maintenance costs without sacrificing illumination performance.

LED High Bay (MHB04)

High bay is the ideal light source for energy-efficient, low maintenance illumination in large spaces. Designed with durability and functionality in mind, the LED Round High Bay lighting options are versatile and suited to satisfy most all long-term lighting needs. The MHB04 is ideal for light industrial applications, and is your LED replacement for up to 400W MH fixtures. The MHB04 also excels in large indoor lighting. Optional built-in motion sensor is both convenient and energy efficient, and ultra-high light efficiency exceeds your expectations.

USE: Pendant with 3/4" conduit

LED Linear High Bay (MLH03)

The economical solution for warehouse, factory, convention center and gymnasium, the MLH03 series offers multiple lumen packages representing a total range of 12,600 up to 50,000 nominal lumens, provides easy installation into most existing luminaries and replaces linear fluorescent fixtures in new construction or renovation.

Housing

- Rugged cold-rolled steel plate corrosion-resistant housing
- White coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277 VAC or 347-480 VAC input voltage
- Standard with 1-10V dimming

Mounting

- Pendant or surface mount.

UL listing

- Damp location

Ambient Temperature

- Ambient operating temperature -40° C to 55 ° C

Recommended Use

- Office
- Warehouse
- Commercial lighting

90W & 130W
Dimensions: 23.92x10.31x1.83in.

130W & 180W & 205W
Dimensions: 23.92x19.69x1.83in.

130W & 180W
Dimensions: 47.55x14.4x2.88 in.

270W & 300W & 370W
Dimensions: 47.55x24x2.87in.

Replaces up to 18 F32 T8 fixtures.

Accessories

PIR Motion Sensor, 120-277V
USE: Sensor can be pre-installed in factory or field installed

Emergency Battery Backup
NO. EB-8W/90min-1
USE: 900lm 90min.

Steel Wire Rope
USE: Chain mounting.

Pendant hanger
USE: Pendant with 3/4" conduit Only for 130/180/205W

LED Linear High Bay (MLH04)

With 2ft housing and long-life LEDs, MLH04 was designed to replace up to 400W MH or fluorescent linear tubes and can be mounted as high as 40 feet, making them ideal for use in warehouses and industrial applications. The 180 watts and 205 watts LED light engine provide nominal efficacies of 132 lm/w for applying to new lighting layout or more energy-efficient renovation.

LED Linear Fixture (MLF02)

The linear fixture series provides aesthetic and performance choices, integrated controls options and innovative mounting accessories ideal for commercial, retail, manufacturing, warehouse, cove and display applications. When paired with occupancy sensors, dimming and intuitive controls, you save energy and extend the life of the fixtures.

Housing

- Rugged cold-rolled steel plate with powder coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277 VAC or 347-480 VAC input voltage
- Standard with 1-10V dimming

LED Vapor Tight Linear (MVT03)

Mester vapor tight linear provides exceptional illumination performance, cost-effective lighting and are designed for easy installation to save time and money. Housing is completely sealed against moisture and environmental contaminants. The MVT03 is suitable to match existing fluorescent fixtures or keep the same aesthetic throughout your site. Ideal for using in industrial, manufacturing, grocery and retail.

45W&70W&95W

Dimensions: 23.6x6.8x3.7in.

Housing

- Rugged die-cast aluminum, corrosion-resistant housing
- Dark bronze, white or black polyester powder-coat finish

LEDs

- LM-80 certified high performance and reliable LEDs

Electrical

- Universal 120-277 VAC input voltage

Photometric

- Parking garage or low bay

Mounting

- Surface mounting

UL listing

Smart Wireless Lighting Controls System

The Smart Wireless Lighting Controls System is an indoor or outdoor Wireless Bluetooth control system for office, warehouse, parking lot, street and commercial lights. The unique technology within the system enables customers to wirelessly control luminaires through an integrated network and Bluetooth system. This control system switches the lights which you need to control at any time to achieve the best energy saving effect. Can be used in perfect combination with area light, canopy, wall pack and linear high bay.

Features

- Remote control with one button to turn on the light.
- Able to switch up to 1,000 fixtures at the same time.
- Fixtures can be controlled individually or in groups as required.
- Real-time sync light group data over a wireless network.
- Adjustable light brightness in the smart phone application.
- Available to set schedules for lights to start automatically on time.
